

Fair Price Report
real repair records, not a labor guide

Report FPR-054cd072599e

Issued October 2, 2026

Data as of July 2026

fixdozer.com/repair-cost/toyota/camry/cv-axle-replacement/

Toyota Camry — CV Axle Replacement

What owners actually paid for this repair, computed from **real, paid Toyota Camry CV axle replacements** at independent shops across the US.

\$375

typical total — half of all Toyota Camry CV axle replacement jobs cost less, half cost more

Fair range **\$245 – \$551**

the middle half of all invoices
(parts + labor + fees)

LINE ITEM	LOW (1 IN 4 PAID LESS)	TYPICAL	HIGH (3 IN 4 PAID LESS)
Parts — CV axle Complete new or remanufactured axle shaft; axle seal and gear oil where applicable	\$90	\$130	\$197
Labor — 2.4 hrs typical Range 1.9 – 3.3 hrs: remove the hub nut and lower joint, swap the axle, replace the seal, check and top up fluid	\$135	\$203	\$300
Shop fees, supplies & tax The remainder of a typical invoice after parts and labor; varies by state and shop	—	~\$43	—
Total — what owners paid	\$245	\$375	\$551

Low / typical / high are computed per line, so they don't add up exactly to the totals — the total row is the real distribution of complete invoices.

IS YOUR QUOTE FAIR?

A quote between **\$245 and \$551** is inside the band where half of all Toyota Camry CV axle replacements landed. Below it is not automatically a bargain (remanufactured axle on a front-wheel-drive car); above it is not automatically gouging (OEM axle, four-wheel-drive front axle with hub work, both sides done) — but both ends deserve a question.

WHAT MOVES THE PRICE

- **New vs. remanufactured** — reman axles are common and much cheaper; quality varies.
- **Layout** — 4WD trucks and AWD cars take longer than a simple front-drive axle.
- **Seal and fluid** — a torn boot that ran dry often means a new seal and fresh gear oil too.

ABOUT THIS DATA · HOW TO USE THIS REPORT

Vehicle **Toyota Camry, model years 1983–2024**
Data confidence **High** — *large sample, stable ranges*
Records through **July 2026**, refreshed continuously
Source **paid invoices from independent US repair shops**

Bring it to the shop. Ask for the written estimate split into parts, labor hours and rate, and fees — then compare each line. A shop that explains a number above the range is doing its job; one that won't is telling you something too.

NOT A QUOTE This report describes what other owners paid for the same repair. Your year, engine, region and the parts chosen shift the number. FixDozer does not perform repairs and receives nothing from shops.
