Low / typical / high are computed per line, so they don't add up exactly to the totals — the total row is the real distribution of complete invoices.

IS YOUR QUOTE FAIR?

A quote between **\$232 and \$523** is inside the band where half of all Honda Accord oil pan replacements landed. Below it is not automatically a bargain (gasket only with clear access from below); above it is not automatically gouging (new pan, subframe or exhaust lowered for access, all-wheel-drive layouts) — but both ends deserve a question.

WHAT MOVES THE PRICE

- **Gasket or pan** — a rusted or stripped pan is the costlier version of a gasket leak.
- **Access** — on some vehicles the subframe or crossmember has to move — most of the bill.

Bring it to the shop. Ask for the written estimate split into parts, labor hours and rate, and fees — then compare each line. A shop that explains a number above the range is doing its job; one that won't is telling you something too.

NOT A QUOTE This report describes what other owners paid for the same repair. Your year, engine, region and the parts chosen shift the number. FixDozer does not perform repairs and receives nothing from shops.
