Low / typical / high are computed per line, so they don't add up exactly to the totals — the total row is the real distribution of complete invoices.

IS YOUR QUOTE FAIR?

A quote between **\$390 and \$1,078** is inside the band where half of all Chevrolet Silverado 2500HD fuel injector replacements landed. Below it is not automatically a bargain (one gasoline injector on an accessible rail); above it is not automatically gouging (a full set, diesel injectors requiring coding, intake manifold removal to reach them) — but both ends deserve a question.

WHAT MOVES THE PRICE

- **Gas vs. diesel** — diesel injectors cost several times more and must be coded to the engine.
- **One or all** — shops often recommend replacing a set at high mileage.
- **Access** — some engines need the intake manifold off.

ABOUT THIS DATA · HOW TO USE THIS REPORT

Vehicle **Chevrolet Silverado 2500HD, model years 1999–2022**
Data confidence **Good** — *good sample, dependable ranges*
Records through **July 2026**, refreshed continuously
Source **paid invoices from independent US repair shops**

Bring it to the shop. Ask for the written estimate split into parts, labor hours and rate, and fees — then compare each line. A shop that explains a number above the range is doing its job; one that won't is telling you something too.

NOT A QUOTE This report describes what other owners paid for the same repair. Your year, engine, region and the parts chosen shift the number. FixDozer does not perform repairs and receives nothing from shops.
