

Fair Price Report  
real repair records, not a labor guide

Report FPR-d6b11e40a3f6  
Issued September 2, 2026  
Data as of July 2026  
[fixdozer.com/repair-cost/ford/taurus/serpentine-belt-replacement/](https://fixdozer.com/repair-cost/ford/taurus/serpentine-belt-replacement/)

## Ford Taurus — Serpentine Belt Replacement

What owners actually paid for this repair, computed from **real, paid Ford Taurus serpentine belt replacements** at independent shops across the US.

**\$149**

typical total — half of all Ford Taurus serpentine belt replacement jobs cost less, half cost more

Fair range **\$106 – \$233**

the middle half of all invoices  
(parts + labor + fees)

| LINE ITEM                                                                                                                        | LOW (1 IN 4 PAID LESS) | TYPICAL      | HIGH (3 IN 4 PAID LESS) |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------|--------------|-------------------------|
| <b>Parts — Serpentine belt</b><br>Belt; sometimes the tensioner or idler with it                                                 | \$45                   | \$56         | \$70                    |
| <b>Labor — 0.9 hrs typical</b><br>Range 0.5 – 1.5 hrs: release tension, route the new belt, verify alignment and quiet operation | \$43                   | \$66         | \$106                   |
| <b>Shop fees, supplies &amp; tax</b><br>The remainder of a typical invoice after parts and labor; varies by state and shop       | —                      | ~\$27        | —                       |
| <b>Total — what owners paid</b>                                                                                                  | <b>\$106</b>           | <b>\$149</b> | <b>\$233</b>            |

Low / typical / high are computed per line, so they don't add up exactly to the totals — the total row is the real distribution of complete invoices.

### IS YOUR QUOTE FAIR?

A quote between **\$106 and \$233** is inside the band where half of all Ford Taurus serpentine belt replacements landed. Below it is not automatically a bargain (belt only on an accessible engine); above it is not automatically gouging (belt plus tensioner, tight transverse layouts, a second belt on engines that use two) — but both ends deserve a question.

### WHAT MOVES THE PRICE

- **Belt alone or with tensioner** — a squeal that returns after a new belt is usually the tensioner.
- **Access** — some transverse engines need a wheel or splash shield off.

### ABOUT THIS DATA · HOW TO USE THIS REPORT

Vehicle **Ford Taurus, model years 1987–2019**  
Data confidence **High** — *large sample, stable ranges*  
Records through **July 2026**, refreshed continuously  
Source **paid invoices from independent US repair shops**

Bring it to the shop. Ask for the written estimate split into parts, labor hours and rate, and fees — then compare each line. A shop that explains a number above the range is doing its job; one that won't is telling you something too.

**NOT A QUOTE** This report describes what other owners paid for the same repair. Your year, engine, region and the parts chosen shift the number. FixDozer does not perform repairs and receives nothing from shops.
